Kp. Rawabelut RT 01 RW 06, Cileungsi Kidul Village, Bogor Regency, West Java

A Computer Science graduate from Pertamina University, focused on full-stack web development. I build frontends with React, TypeScript, and Next.js, and backends with Go and PostgreSQL. I have shipped production features as a Junior Software Developer at my university and during an internship at Pupuk Indonesia. I work in Agile teams and apply MVC and Clean Architecture to keep systems maintainable and scalable.

EDUCATION

Universitas Pertamina - Jakarta, Indonesia

Bachelor of Computer Science, 3.25/4.00

PROJECT & WORK EXPERIENCE

Software Engineer Intern - PT Pupuk Indonesia (Persero)

Sep 2025 - Jan 2026

Fullstack Dev - Next.js, Golang, Tailwind, PostgreSQL, React.js

- Migrated the Travel module from Laravel's monolithic architecture to microservices with React (frontend) and Golang (backend)
- Designed and implemented the "Penghasilan Tidak Kena Pajak" (PTKP) feature on the employee web portal
- Collaborated with the backend team to design and refine APIs, facilitating cross-functional feature integration and resolving complex technical challenges through effective stakeholder communication.

Junior Software Developer - Universitas Pertamina

Jul 2025 - Jul 2026

Fullstack Dev - Next.js, Golang, PostgreSQL, Express.js, MySQL

- Developed backend microservices for academic information system using Golang (pgx v5) and PostgreSQL
- Developed a part time job platform application for students within the university environment

Website VIOLIE - Himpunan Mahasiswa Ilmu Komputer - Universitas Pertamina

Fullstack Dev - Next.js, Tailwind, Supabase

- Designed and launched a secure e-voting system for student organization president election using Next.js and Supabase.
- Designed a secure authentication system based on university email (nim@student.universitaspertamina.ac.id) and token verification to guarantee the integrity and validity of votes in the election.

ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Ilmu Komputer (HMIK) Universitas Pertamina

Jan 2024 - Jan 2026

Staff of the Project Development and Partnership division

- Developed web applications in response to requests from the Computer Science Student Association and implemented solutions based on divisional discussion outcomes to benefit students.

Computer Information Technology Event Universitas Pertamina (CITE UP)

Feb 2024 - Sep 2024

Public Relations Division Staff

CITE UP is an annual national event that focuses on technology and computers. Organized by the Computer Science Study Program at Pertamina University, this event aims to encourage creativity and digital skills among students, including competencies in programming, design, and logic.

- Contributed to CITE UP, an annual national technology and computer event organized by the Computer Science Study Program at Pertamina University, aimed at enhancing student creativity and digital skills in programming, design, and logic.
- Designed and implemented public communication strategies by collaborating with media partners, coordinating alumni invitations, and ensuring the effective dissemination of information related to competitions and seminars.

SKILLS & ACHIEVEMENTS

- **Code Generation and Optimization Using IBM Granite** 🏆 (2025)
- **Soft Skills:** Leadership, Responsibility, Critical Thinking, Resilience, Communication
- **Programming Languages:** PHP, JavaScript, TypeScript, Java, Dart, C++, Python, Go
- **Framework:** Laravel, Next.js, Flutter, Tailwind CSS, React.js
- **Tools:** Git, MySQL, Postman, Supabase, PostgreSQL
